

NLT Document Platform

ReportLab expansion for the full collateral portfolio

Proof on portfolio.nltlabs.ai — not slideware.
FUND-gated ship discipline — never say invest.

AUDIENCE Prospects · partners · investors

Executive summary

<p>10 VOL BRIEFS Vol 1-10 live</p>	<p>5 NEW TEMPLATES Phase 4 expansion</p>	<p>7.4 TABLE FILL content-aware widths</p>	<p>100% REPORTLAB no WeasyPrint rewrite</p>
---	---	---	--

NLT Labs ships investor briefs, operator guides, release notes, and partner memos from a single ReportLab kernel. Phase 4 adds layout v2, rich media, and six new document classes without migrating to HTML-first PDF tools. Partners FUND POCs through the same quality pipeline that gates every portfolio ship.

Key findings

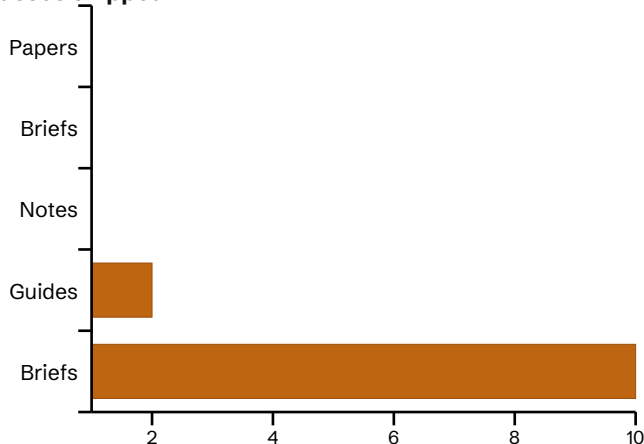

- 1 Layout v2 fixes table auto-width — the lowest 2026 scorecard domain.
- 2 Screenshots + sparklines unlock user guides and release notes.
- 3 Combination strategy: ReportLab core + pdfplumber QA edge tools.

Why now

TAP-3495 delivered Vol 1-10. TAP-3638 extends the same engine for guides, changelog PDFs, marketing cuts, and whitepapers — one CLI, one brand pack.

Document classes shipped

Partner CTA

Review live POC proof at portfolio.nltlabs.ai. Request a FUND memo walkthrough — we do not ask partners to invest; we ask them to fund gated ship cycles.

Live portfolio proof

Capability	Status	Proof URL
Platform briefs	Live	https://briefs.nltlabs.ai
Portfolio POCs	Live	https://portfolio.nltlabs.ai
Report Studio ops	Vol 9	briefs.nltlabs.ai/downloads
Quality pipeline	Vol 10	briefs.nltlabs.ai/downloads

Call to action

Schedule a 30-minute architecture review. We will rebuild your collateral class from templates/user_guide.yaml or marketing_brief.yaml with your brand extensions. Proof stays on portfolio.nltlabs.ai — never slideware.

Confidential — prepared for NLT Labs stakeholders. Outward names follow docs/NLT_BRAND.md. Internal checkout names appear only in builder ops volumes (9-10).
